Dear [Mr/ Mrs/Ms/Dr] [First Name] [Last Name]

I am writing to you in relation to the proposed prominence regulation I have been reading about.

I am very concerned about the impact this regulation may have on my ability to watch what I want and how I want on my TV in my home.

I cherish turning on my television and being able to easily access the apps and content I subscribe to and enjoy watching the most. Managing my ability to search for content and my access to certain apps goes against my right as an Australian consumer to decide what and how I watch content.

I do not support the Government taking control of TV devices in the home and the content we are served on them.

This type of regulation goes against what Australia has worked hard to build as a democracy with free markets, freedom of choice and freedom of speech.

I want to understand with some immediacy what is being done to stop this from happening so that my viewing choices remain my own.

Please contact me on [insert contact details]

Kind regards
