Foxtel On Demand in June: Winter is Here

More hit TV and movies added to the more than 11,000 hours of incredible programming available to watch On Demand, plus binge on *Game of Thrones*

This June, Foxtel continues to build on its increasing library of the best complete seasons and recent movies available to stream, instantly, on Foxtel On Demand.

With a white raven arriving at Winterfell at the end of last season, Foxtel reminds customers that 'Winter is Here' and in the lead up to July's highly anticipated premiere of *Game of Thrones* season 7, subscribers can catch up on every episode from *Game of Thrones* seasons 1-6, On Demand, to relive all of the drama and intrigue from the seven kingdoms of Westeros.

Foxtel's other June arrivals include season 5 of the popular 'dramedy' *Orange Is The New Black*, with all episodes available on June 9, plus new episodes of zombie hit *Fear the Walking Dead* season 3. The hilarious *Silicon Valley* season 4 continues, plus the super-villain action film, *Suicide Squad*, family favourite, *The Secret Life of Pets* and romantic comedy *Bridget Jones's Baby* land in June.

Foxtel residential customers with an internet connected Foxtel iQ box can instantly stream any of Foxtel's incredible On Demand programming as well as record and play back a host of movies and TV to watch when they like. Foxtel streaming service, Foxtel Play, also provides access to Foxtel's world-leading entertainment live and On Demand starting from only \$10 per month.

In addition, Foxtel residential and Foxtel Play customers have access to Foxtel Go, Foxtel's mobile streaming app, at no extra charge. Foxtel Go enables subscribers to stream TV, live and On Demand, to selected smartphones and tablets, where they want, when they want.

Orange Is The New Black follows Piper Chapman (Taylor Schilling), a former PR exec sentenced to a minimum-security prison, as she navigates the correctional system alongside an outrageous crew of eccentric inmates as she trades high fashion for prison orange in this acclaimed dramedy.

Fear the Walking Dead brings another perspective of the zombie apocalypse first introduced by *The Walking Dead*. Arriving in its third season, the series follows a shattered group of survivors who search for safety in the midst of threats from both the living and the undead. Season 3 arrives on Foxtel with new episodes added On Demand throughout June.

The dysfunctional side of technology is bared in full as *Silicon Valley* introduces viewers to the comedic misadventures of computer programmers in the high-tech mecca of the San Francisco Bay Area as they hope to strike it rich in the high-stakes, high pressure world of tech innovation.

Also adding new episodes On Demand in June is the British thriller *Apple Tree Yard* (season 1); the antics of the *Real Housewives of Toronto* (season 1); the mouth-watering *Bake Off: The Professionals* (season 1); and the high-seas adventures of *Deadliest Catch* (season 13).
